

BANJOS.NET SOLUTIONS LTD.

CCTV | SMART HOME AUTOMATION | NETWORKING | SECURITY
INSTALLATIONS & SALES

6-MONTH SOCIAL MEDIA & DIGITAL MARKETING PLAN

**VERY DETAILED DAILY EXECUTION PLAN • MONTHLY CAMPAIGNS
• BUDGET • SALES FLOW • KPIs**

“WE BUILD IT. WE SECURE IT. WE AUTOMATE IT.”

WhatsApp: 07077883112

Prepared: September 2026

1. EXECUTIVE SUMMARY

This revised plan keeps the campaign budget at exactly **■200,000 per month** and **■1,200,000 for six months**. It expands the original 16-page framework into a practical execution manual: what to post each day, what to do on each platform, how to turn attention into WhatsApp conversations, how to follow up, what to measure, and how to improve the campaign every week.

The original plan correctly established the core direction: Facebook, Instagram, TikTok, WhatsApp Business and LinkedIn work together, with WhatsApp serving as the main conversion point. It also emphasized reusing one strong 30–45 second video across platforms to keep production realistic. ■filecite■turn0file0■L46-L66■

The four service lines remain the foundation: CCTV & Surveillance; Smart Home Automation; Networking & Infrastructure; and Security Systems. The source plan's goal is daily visibility, clear product understanding, trust and WhatsApp enquiries. ■filecite■turn0file0■L14-L31■

This document therefore uses a **focus-and-support model**: each month has one major commercial focus, but all four services continue appearing in the content calendar so no service disappears from the market.

2. THE SIX-MONTH SALES JOURNEY

Month	Primary Focus	Main Business Outcome
1	Brand + full service awareness	Make Abuja know who Banjos is, what it sells and why it can be trusted.
2	CCTV & surveillance	Generate CCTV enquiries, site inspections, quotations and installations.
3	Smart Home Automation	Create demand through demonstrations and sell practical smart-home packages.
4	Networking + corporate security	Reach offices, schools, hotels, estates and facility managers.
5	Integrated security bundles	Increase average order value by combining services into complete packages.

Month	Primary Focus	Main Business Outcome
6	Business technology + retargeting	Convert warm leads, close outstanding quotations and build the next sales pipeline.

3. PLATFORM JOBS

Platform	Job	Execution
Facebook	Local awareness + lead generation	1 strong post/reel daily; use clear Abuja/local-property messaging.
Instagram	Visual proof + demonstrations	1 main post/reel daily + Stories; prioritize installations and demos.
TikTok	Reach + discovery	1–2 short videos daily; hooks, demonstrations, myths and satisfying installation clips.
WhatsApp Business	Conversion + follow-up	Daily Status, catalogue, broadcasts and structured lead conversations.
LinkedIn	Corporate lead generation	4 posts/week plus daily engagement with decision-makers.

4. THE DAILY OPERATING ROUTINE

- **08:00–09:00:** Check WhatsApp, reply to every enquiry and review the day's content.
- **09:00–11:00:** Film/edit the day's Reel or prepare the graphic/carousel.
- **12:00–14:00:** Publish the main content and actively engage with comments.
- **15:00–17:00:** Follow up with leads, send quotations and contact prospects.
- **18:00–21:00:** Publish WhatsApp Status, respond to messages and engage with audience.
- **Before closing:** Record the day's numbers and write tomorrow's content task.

5. REVISED BUDGET — EXACTLY ■200,000 MONTHLY

The original document contains a minor inconsistency between its ■200,000 monthly channel table and a later ■1,220,000 working figure. This revised version follows your instruction strictly: **■200,000 every month × 6 months = ■1,200,000 total**. The budget is deliberately structured so content production is protected while paid promotion is concentrated on the strongest service and warm audiences.

Channel / Activity	Monthly	Six Months	Purpose
Meta Ads — Facebook + Instagram	■90,000	■540,000	Lead-generation campaigns, WhatsApp conversations and retargeting.
TikTok Ads	■30,000	■180,000	Amplify strong demo videos and reach new audiences.
Content Production	■50,000	■300,000	Filming, editing, graphics, Reels, thumbnails and content preparation.
WhatsApp Promotion / Boosting	■15,000	■90,000	Status/catalogue promotion and sales-focused broadcast support.
LinkedIn Promotion	■10,000	■60,000	Corporate/estate/facility-management visibility.
Contingency / Extra Boost	■5,000	■30,000	Emergency top-up or re-boost of proven content.
TOTAL	■200,000	■1,200,000	Fixed campaign ceiling.

6. PAID-AD FOCUS BY MONTH

Month	CCTV	Smart Home	Networking/ Security	Brand/Retargeting	Paid Total
1 — Brand	■60,000	■40,000	■20,000	■50,000	■170,000
2 — CCTV	■90,000	■20,000	■10,000	■50,000	■170,000
3 — Smart Home	■20,000	■90,000	■10,000	■50,000	■170,000
4 — Networking	■30,000	■20,000	■70,000	■50,000	■170,000
5 — Bundles	■50,000	■50,000	■20,000	■50,000	■170,000
6 — Business/ Retarget	■20,000	■20,000	■70,000	■60,000	■170,000

The remaining ■30,000 each month is protected for content production/contingency within the overall ■200,000 ceiling. Do not spend the full paid budget on day one. Start, observe, then move money toward the ad set producing the best quality WhatsApp leads.

7. CONTENT FORMULA

Content Type	Share	Purpose
Educational	40%	Teach the customer what problem exists and how the technology solves it.
Demonstration	25%	Prove that the technology works through real footage.
Trust-building	15%	Show team, completed projects, client feedback and process.
Promotional	10%	Give a reason to enquire now: offer, inspection, bundle or limited-time incentive.
Company personality	10%	Show the people and process behind the service.

MONTH 1 — BRAND REINTRODUCTION + FULL SERVICE AWARENESS

Campaign objective: Reintroduce Banjos.Net Solutions, explain all four service lines and establish trust.

Core campaign hook: *“Is your home or business really protected, connected and smart?”*

Non-negotiable: This month's featured service gets the largest creative and advertising attention, but every week still contains content for CCTV, Smart Home Automation, Networking & Infrastructure, and Security Systems. The aim is to make Banjos.Net Solutions look like a complete technology partner, not a single-product vendor.

Weekly execution map:

- Week 1: Brand story, team, capability, service overview and trust signals.
- Week 2: CCTV education and demonstrations while still showing other services.
- Week 3: Smart Home demonstrations and lifestyle benefits.
- Week 4: Networking + Security Systems, then a full-service conversion push.

Monthly production targets

Asset	Target
Short-form Reels / videos	20–25, cross-posted to Facebook, Instagram and TikTok
Educational graphics / carousels	10–12
Promotional posts	6–8
WhatsApp Status updates	Daily; minimum 25–30 active days
LinkedIn posts	16–20, with daily professional engagement
Client testimonials / project proof	2–4, depending on available completed work

DAY 1 — MONDAY

Daily theme: Authority + education **Featured angle:** Brand

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Banjos.Net Solutions and all four service lines**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how brand can solve a real problem."*

DAY 2 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how cctv can solve a real problem."*

DAY 3 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how smart home can solve a real problem."*

DAY 4 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how networking can solve a real problem."*

DAY 5 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how security can solve a real problem."*

DAY 6 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** All Services

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how all services can solve a real problem."*

DAY 7 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** Client Proof

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **Client Proof**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how client proof can solve a real problem."*

DAY 8 — MONDAY

Daily theme: Authority + education **Featured angle:** Brand

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Banjos.Net Solutions and all four service lines**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how brand can solve a real problem."*

DAY 9 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how cctv can solve a real problem."*

DAY 10 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how smart home can solve a real problem."*

DAY 11 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how networking can solve a real problem."*

DAY 12 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how security can solve a real problem."*

DAY 13 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** All Services

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how all services can solve a real problem."*

DAY 14 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** Client Proof

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **Client Proof**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how client proof can solve a real problem."*

DAY 15 — MONDAY

Daily theme: Authority + education **Featured angle:** Brand

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Banjos.Net Solutions and all four service lines**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how brand can solve a real problem."*

DAY 16 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how cctv can solve a real problem."*

DAY 17 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how smart home can solve a real problem."*

DAY 18 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how networking can solve a real problem."*

DAY 19 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how security can solve a real problem."*

DAY 20 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** All Services

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how all services can solve a real problem."*

DAY 21 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** Client Proof

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **Client Proof**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how client proof can solve a real problem."*

DAY 22 — MONDAY

Daily theme: Authority + education **Featured angle:** Brand

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Banjos.Net Solutions and all four service lines**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how brand can solve a real problem."*

DAY 23 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how cctv can solve a real problem."*

DAY 24 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how smart home can solve a real problem."*

DAY 25 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how networking can solve a real problem."*

DAY 26 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how security can solve a real problem."*

DAY 27 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** All Services

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how all services can solve a real problem."*

DAY 28 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** Client Proof

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **Client Proof**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how client proof can solve a real problem."*

DAY 29 — MONDAY

Daily theme: Authority + education **Featured angle:** Brand

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Banjos.Net Solutions and all four service lines**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how brand can solve a real problem."*

DAY 30 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is your home or business really protected, connected and smart? — today we are showing you how cctv can solve a real problem."*

MONTH 2 — CCTV & SURVEILLANCE SALES PUSH

Campaign objective: Make CCTV the strongest lead generator while continuing to show Smart Home, Networking and Security Systems.

Core campaign hook: *“If something happens when you are away, can you see it?”*

Non-negotiable: This month's featured service gets the largest creative and advertising attention, but every week still contains content for CCTV, Smart Home Automation, Networking & Infrastructure, and Security Systems. The aim is to make Banjos.Net Solutions look like a complete technology partner, not a single-product vendor.

Weekly execution map:

- Week 1: CCTV basics, property risk and camera placement.
- Week 2: Remote monitoring, night vision, recording and phone access.
- Week 3: Old system problems, maintenance, upgrades and professional installation.
- Week 4: Case studies, testimonials, offer and retargeting.

Monthly production targets

Asset	Target
Short-form Reels / videos	20–25, cross-posted to Facebook, Instagram and TikTok
Educational graphics / carousels	10–12
Promotional posts	6–8
WhatsApp Status updates	Daily; minimum 25–30 active days
LinkedIn posts	16–20, with daily professional engagement
Client testimonials / project proof	2–4, depending on available completed work

DAY 1 — MONDAY

Daily theme: Authority + education **Featured angle:** CCTV

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

DAY 2 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

DAY 3 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how smart home can solve a real problem."*

DAY 4 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how networking can solve a real problem."*

DAY 5 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how security can solve a real problem."*

DAY 6 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** CCTV

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

DAY 7 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how all services can solve a real problem."*

DAY 8 — MONDAY

Daily theme: Authority + education **Featured angle:** CCTV

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

DAY 9 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

DAY 10 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how smart home can solve a real problem."*

DAY 11 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how networking can solve a real problem."*

DAY 12 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how security can solve a real problem."*

DAY 13 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** CCTV

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

DAY 14 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how all services can solve a real problem."*

DAY 15 — MONDAY

Daily theme: Authority + education **Featured angle:** CCTV

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.

DAY 22 — MONDAY

Daily theme: Authority + education **Featured angle:** CCTV

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

DAY 23 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

DAY 24 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how smart home can solve a real problem."*

DAY 25 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how networking can solve a real problem."*

DAY 26 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how security can solve a real problem."*

DAY 27 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** CCTV

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

DAY 28 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how all services can solve a real problem."*

DAY 29 — MONDAY

Daily theme: Authority + education **Featured angle:** CCTV

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

DAY 30 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"If something happens when you are away, can you see it? — today we are showing you how cctv can solve a real problem."*

MONTH 3 — SMART HOME AUTOMATION + MODERN LIVING

Campaign objective: Use highly visual demonstrations to turn Smart Home Automation into an aspirational, understandable service.

Core campaign hook: *“What if your home responded to you?”*

Non-negotiable: This month's featured service gets the largest creative and advertising attention, but every week still contains content for CCTV, Smart Home Automation, Networking & Infrastructure, and Security Systems. The aim is to make Banjos.Net Solutions look like a complete technology partner, not a single-product vendor.

Weekly execution map:

- Week 1: One-tap control demonstrations.
- Week 2: Five practical things customers can automate.
- Week 3: Normal home vs smart home and smart security.
- Week 4: Installation proof, catalogue and package offers.

Monthly production targets

Asset	Target
Short-form Reels / videos	20–25, cross-posted to Facebook, Instagram and TikTok
Educational graphics / carousels	10–12
Promotional posts	6–8
WhatsApp Status updates	Daily; minimum 25–30 active days
LinkedIn posts	16–20, with daily professional engagement
Client testimonials / project proof	2–4, depending on available completed work

DAY 1 — MONDAY

Daily theme: Authority + education **Featured angle:** Smart Home

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how smart home can solve a real problem."*

DAY 2 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how cctv can solve a real problem."*

DAY 3 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how smart home can solve a real problem."*

DAY 4 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how networking can solve a real problem."*

DAY 5 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how security can solve a real problem."*

DAY 6 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Smart Home

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.

Suggested content hook: *"What if your home responded to you? — today we are showing you how smart home can solve a real problem."*

DAY 9 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how cctv can solve a real problem."*

DAY 10 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how smart home can solve a real problem."*

DAY 11 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how networking can solve a real problem."*

DAY 12 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how security can solve a real problem."*

DAY 13 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Smart Home

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how smart home can solve a real problem."*

DAY 14 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "What if your home responded to you? — today we are showing you how all services can solve a real problem."

DAY 15 — MONDAY

Daily theme: Authority + education **Featured angle:** Smart Home

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how smart home can solve a real problem."*

DAY 16 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how cctv can solve a real problem."*

DAY 17 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how smart home can solve a real problem."*

DAY 18 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how networking can solve a real problem."*

DAY 19 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how security can solve a real problem."*

DAY 20 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Smart Home

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how smart home can solve a real problem."*

DAY 21 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "What if your home responded to you? — today we are showing you how all services can solve a real problem."

DAY 22 — MONDAY

Daily theme: Authority + education **Featured angle:** Smart Home

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."

Suggested content hook: *"What if your home responded to you? — today we are showing you how all services can solve a real problem."*

DAY 29 — MONDAY

Daily theme: Authority + education **Featured angle:** Smart Home

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how smart home can solve a real problem."*

DAY 30 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What if your home responded to you? — today we are showing you how cctv can solve a real problem."*

MONTH 4 — NETWORKING + CORPORATE SECURITY

Campaign objective: Win offices, schools, hotels, estates, shops and corporate decision-makers through proof and business outcomes.

Core campaign hook: *“Is poor connectivity slowing your business down?”*

Non-negotiable: This month's featured service gets the largest creative and advertising attention, but every week still contains content for CCTV, Smart Home Automation, Networking & Infrastructure, and Security Systems. The aim is to make Banjos.Net Solutions look like a complete technology partner, not a single-product vendor.

Weekly execution map:

- Week 1: Business Wi-Fi and network problems.
- Week 2: Structured cabling and network-room transformations.
- Week 3: Access control, alarms and corporate security.
- Week 4: Corporate case study, decision-maker outreach and conversion.

Monthly production targets

Asset	Target
Short-form Reels / videos	20–25, cross-posted to Facebook, Instagram and TikTok
Educational graphics / carousels	10–12
Promotional posts	6–8
WhatsApp Status updates	Daily; minimum 25–30 active days
LinkedIn posts	16–20, with daily professional engagement
Client testimonials / project proof	2–4, depending on available completed work

DAY 1 — MONDAY

Daily theme: Authority + education **Featured angle:** Networking

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 2 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how cctv can solve a real problem."*

DAY 3 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Networking

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 4 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Security

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how security can solve a real problem."*

DAY 5 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Smart Home

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how smart home can solve a real problem."*

DAY 6 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Networking

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 7 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "Is poor connectivity slowing your business down? — today we are showing you how all services can solve a real problem."

DAY 8 — MONDAY

Daily theme: Authority + education **Featured angle:** Networking

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 9 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how cctv can solve a real problem."*

DAY 10 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Networking

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 11 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Security

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how security can solve a real problem."*

DAY 12 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Smart Home

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.

- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 18 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Security

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how security can solve a real problem."*

DAY 19 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Smart Home

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how smart home can solve a real problem."*

DAY 20 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Networking

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 21 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "Is poor connectivity slowing your business down? — today we are showing you how all services can solve a real problem."

DAY 22 — MONDAY

Daily theme: Authority + education **Featured angle:** Networking

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 23 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how cctv can solve a real problem."*

DAY 24 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Networking

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 25 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Security

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how security can solve a real problem."*

DAY 26 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Smart Home

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how smart home can solve a real problem."*

DAY 27 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Networking

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 28 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "Is poor connectivity slowing your business down? — today we are showing you how all services can solve a real problem."

DAY 29 — MONDAY

Daily theme: Authority + education **Featured angle:** Networking

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how networking can solve a real problem."*

DAY 30 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"Is poor connectivity slowing your business down? — today we are showing you how cctv can solve a real problem."*

MONTH 5 — INTEGRATED SECURITY + COMPLETE TECHNOLOGY PACKAGES

Campaign objective: Stop selling isolated products and sell complete solutions that combine CCTV, Smart Home, Networking and Security Systems.

Core campaign hook: *“One property. One technology partner. Complete protection.”*

Non-negotiable: This month's featured service gets the largest creative and advertising attention, but every week still contains content for CCTV, Smart Home Automation, Networking & Infrastructure, and Security Systems. The aim is to make Banjos.Net Solutions look like a complete technology partner, not a single-product vendor.

Weekly execution map:

- Week 1: Launch complete protection packages.
- Week 2: Testimonial and proof campaign.
- Week 3: Estate, hotel and luxury-property walkthroughs.
- Week 4: Bundle pricing, urgency and retargeting.

Monthly production targets

Asset	Target
Short-form Reels / videos	20–25, cross-posted to Facebook, Instagram and TikTok
Educational graphics / carousels	10–12
Promotional posts	6–8
WhatsApp Status updates	Daily; minimum 25–30 active days
LinkedIn posts	16–20, with daily professional engagement
Client testimonials / project proof	2–4, depending on available completed work

DAY 1 — MONDAY

Daily theme: Authority + education **Featured angle:** Bundle

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **CCTV + Smart Home + Networking + Security Systems as one solution**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner.*

Complete protection. — today we are showing you how bundle can solve a real problem."

DAY 2 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner. Complete protection. — today we are showing you how cctv can solve a real problem."*

DAY 3 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner. Complete protection. — today we are showing you how smart home can solve a real problem."*

DAY 4 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "One property. One technology partner. Complete protection. — today we are showing you how networking can solve a real problem."

DAY 5 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "One property. One technology partner. Complete protection. — today we are showing you how security can solve a real problem."

DAY 6 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Bundle

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **CCTV + Smart Home + Networking + Security Systems as one solution**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner.*

Complete protection. — today we are showing you how bundle can solve a real problem."

DAY 7 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner.*

Complete protection. — today we are showing you how all services can solve a real problem."

DAY 8 — MONDAY

Daily theme: Authority + education **Featured angle:** Bundle

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **CCTV + Smart Home + Networking + Security Systems as one solution**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner.*

Complete protection. — today we are showing you how bundle can solve a real problem."

DAY 9 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner. Complete protection. — today we are showing you how cctv can solve a real problem."*

DAY 10 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner. Complete protection. — today we are showing you how smart home can solve a real problem."*

DAY 11 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner. Complete protection. — today we are showing you how networking can solve a real problem."*

DAY 12 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner. Complete protection. — today we are showing you how security can solve a real problem."*

DAY 13 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Bundle

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **CCTV + Smart Home + Networking + Security Systems as one solution**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "One property. One technology partner.

Complete protection. — today we are showing you how bundle can solve a real problem."

DAY 14 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner.*

Complete protection. — today we are showing you how all services can solve a real problem."

DAY 15 — MONDAY

Daily theme: Authority + education **Featured angle:** Bundle

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **CCTV + Smart Home + Networking + Security Systems as one solution**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner.*

Complete protection. — today we are showing you how bundle can solve a real problem."

DAY 16 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.

Suggested content hook: *"One property. One technology partner. Complete protection. — today we are showing you how smart home can solve a real problem."*

DAY 25 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "One property. One technology partner. Complete protection. — today we are showing you how networking can solve a real problem."

DAY 26 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner. Complete protection. — today we are showing you how security can solve a real problem."*

DAY 27 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Bundle

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **CCTV + Smart Home + Networking + Security Systems as one solution**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "One property. One technology partner.

Complete protection. — today we are showing you how bundle can solve a real problem."

DAY 28 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner.*

Complete protection. — today we are showing you how all services can solve a real problem."

DAY 29 — MONDAY

Daily theme: Authority + education **Featured angle:** Bundle

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **CCTV + Smart Home + Networking + Security Systems as one solution**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"One property. One technology partner.*

Complete protection. — today we are showing you how bundle can solve a real problem."

DAY 30 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "One property. One technology partner.

Complete protection. — today we are showing you how cctv can solve a real problem."

MONTH 6 — BUSINESS TECHNOLOGY + RETARGETING + CLOSING

Campaign objective: Turn the accumulated audience and warm leads into quotations, site inspections, installations and referrals.

Core campaign hook: *“What could better technology change in your home or business?”*

Non-negotiable: This month's featured service gets the largest creative and advertising attention, but every week still contains content for CCTV, Smart Home Automation, Networking & Infrastructure, and Security Systems. The aim is to make Banjos.Net Solutions look like a complete technology partner, not a single-product vendor.

Weekly execution map:

- Week 1: Full technology capability and business outcomes.
- Week 2: Six-month proof, biggest projects and strongest content.
- Week 3: Heavy retargeting and direct WhatsApp conversion.
- Week 4: Final package promotion, referrals and next-cycle pipeline.

Monthly production targets

Asset	Target
Short-form Reels / videos	20–25, cross-posted to Facebook, Instagram and TikTok
Educational graphics / carousels	10–12
Promotional posts	6–8
WhatsApp Status updates	Daily; minimum 25–30 active days
LinkedIn posts	16–20, with daily professional engagement
Client testimonials / project proof	2–4, depending on available completed work

DAY 1 — MONDAY

Daily theme: Authority + education **Featured angle:** Business Tech

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Business networking + CCTV + access control + smart technology**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how business tech can solve a real problem."*

DAY 2 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how cctv can solve a real problem."*

DAY 3 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how smart home can solve a real problem."*

DAY 4 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how networking can solve a real problem."*

DAY 5 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how security can solve a real problem."*

DAY 6 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Business Tech

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **Business networking + CCTV + access control + smart technology**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how business tech can solve a real problem."*

DAY 7 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "What could better technology change in your home or business? — today we are showing you how all services can solve a real problem."

DAY 8 — MONDAY

Daily theme: Authority + education **Featured angle:** Business Tech

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Business networking + CCTV + access control + smart technology**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how business tech can solve a real problem."*

DAY 9 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.

- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how networking can solve a real problem."*

DAY 12 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how security can solve a real problem."*

DAY 13 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Business Tech

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **Business networking + CCTV + access control + smart technology**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how business tech can solve a real problem."*

DAY 14 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: "What could better technology change in your home or business? — today we are showing you how all services can solve a real problem."

DAY 15 — MONDAY

Daily theme: Authority + education **Featured angle:** Business Tech

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Business networking + CCTV + access control + smart technology**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how business tech can solve a real problem."*

DAY 16 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how cctv can solve a real problem."*

DAY 17 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how smart home can solve a real problem."*

DAY 18 — THURSDAY

Daily theme: Trust + case study **Featured angle:** Networking

What you are trying to achieve today: Tell a client/project story, explain the result and show evidence where permission is available. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main trust + case study around **Networking**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how networking can solve a real problem."*

DAY 19 — FRIDAY

Daily theme: Offer + lead generation **Featured angle:** Security

What you are trying to achieve today: Make a clear commercial offer, consultation invitation or site-inspection CTA and send traffic to WhatsApp. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main offer + lead generation around **Security**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how security can solve a real problem."*

DAY 20 — SATURDAY

Daily theme: Behind the scenes **Featured angle:** Business Tech

What you are trying to achieve today: Show the people, tools, installation process, preparation, testing and company personality. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main behind the scenes around **Business networking + CCTV + access control + smart technology**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how business tech can solve a real problem."*

DAY 21 — SUNDAY

Daily theme: Recap + follow-up **Featured angle:** All Services

What you are trying to achieve today: Recap the week's strongest result, repost the best proof and follow up with warm leads. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main recap + follow-up around **CCTV + Smart Home + Networking + Security Systems**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how all services can solve a real problem."*

DAY 22 — MONDAY

Daily theme: Authority + education **Featured angle:** Business Tech

What you are trying to achieve today: Publish a short educational post/reel explaining a customer problem and the correct technology solution. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main authority + education around **Business networking + CCTV + access control + smart technology**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how business tech can solve a real problem."*

DAY 23 — TUESDAY

Daily theme: Product spotlight **Featured angle:** CCTV

What you are trying to achieve today: Show one product/service clearly, including what it does, who needs it and how to request a quote. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main product spotlight around **CCTV**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.
- **End-of-day check:** Record reach, video views, saves/shares, WhatsApp enquiries, quotations requested, follow-ups completed and any appointment/site inspection booked.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how cctv can solve a real problem."*

DAY 24 — WEDNESDAY

Daily theme: Proof of work **Featured angle:** Smart Home

What you are trying to achieve today: Show a real installation, before/after, demonstration, site visit or technical process. Make the customer understand the problem, see proof of the solution and know exactly what to do next.

- **Facebook:** Publish the day's main proof of work around **Smart Home**. Use one strong visual, a short problem/solution explanation and end with "Chat with Banjos.Net Solutions on WhatsApp: 07077883112."
- **Instagram:** Repurpose the same core idea as a Reel/carousel. Add a location cue such as Abuja where appropriate, use a clear cover title and place the WhatsApp CTA in the caption and Story.
- **TikTok:** Record a 20–45 second vertical video. Start with a 2–3 second hook, show the technology immediately, explain one useful point, then finish with the WhatsApp number on screen.
- **WhatsApp Business:** Post 3–5 Status frames: hook → proof/product → benefit → offer/CTA. Reply to all new enquiries the same day and move serious leads toward a quotation or site inspection.
- **LinkedIn / outreach:** Share a business-relevant version where suitable and spend at least 20 minutes engaging with Abuja estate developers, facility managers, hotels, schools, offices and business owners.
- **Sales action:** Contact at least 5 warm leads or previous contacts. Ask what they currently have, what problem they are facing, their location/property type and when they want the work done. Record every conversation.

Suggested content hook: *"What could better technology change in your home or business? — today we are showing you how cctv can solve a real problem."*

15. WHATSAPP SALES & CONVERSION SYSTEM

Every ad, Reel, post and Status should point toward one clear conversion path: **see the content → become interested → WhatsApp → structured conversation → quotation → follow-up → site inspection where needed → installation → payment → referral**. This follows the original plan's lead journey. ■filecite■turn0file0■L323-L334■

A. First response template

“Hello, welcome to Banjos.Net Solutions Ltd. Thank you for contacting us. We provide professional CCTV, Smart Home Automation, Networking and Security solutions. Kindly tell us your **location, property type, what you want to achieve, and whether you already have an existing system**. Once we have this information, our team can recommend the right solution.”

B. Qualification questions

- Where is the property located?
- Is it a house, shop, office, school, hotel, estate, warehouse or another property?
- Which service are you interested in?
- What problem are you currently experiencing?
- How many rooms/areas/entry points need coverage?
- Do you already have equipment installed?
- When do you want the project completed?
- Would you like a site inspection or a preliminary quotation?

C. Follow-up schedule

Timing	Action
Same day	Reply, qualify the lead and provide the next step.
24 hours	Confirm whether the customer received the information/quotation.
48–72 hours	Address objections and offer a call/site inspection.
Day 5–7	Send useful proof: project photo, demo or relevant case study.

Timing	Action
Week 2	Final active follow-up for that quotation; ask whether the project is still planned.
After installation	Request testimonial/referral and keep the customer on the follow-up list for maintenance/upgrades.

Never send a one-word response such as “yes”, “okay” or “price”. The original plan specifically requires structured replies that collect location, property type and coverage needs. ■filecite■turn0file0■L307-L334■

16. WEEKLY MANAGEMENT MEETING

- Monday: confirm the week's content, filming requirements, offers and ad campaigns.
- Wednesday: check whether content is generating actual WhatsApp enquiries, not just views.
- Friday: review spend, leads, quotations and the best-performing creative.
- Sunday: calculate the week's totals and decide what to repeat, improve or stop.

17. MONTHLY KPI DASHBOARD

Metric	What to record	What to do with the result
WhatsApp enquiries	Total + by service	Identify which service/content is generating demand.
Cost per WhatsApp lead	Ad spend ÷ qualified leads	Move spend toward better-performing campaigns.
Response time	Average time to first reply	Keep replies within a few hours whenever possible.
Quotation rate	Qualified leads → quotations	Improve qualification and offer clarity if low.
Installation conversion	Quotations → paid projects	Identify pricing, trust or follow-up objections.

Metric	What to record	What to do with the result
Video completion	Views + completion/retention	Repeat hooks and formats that hold attention.
Referrals	Number of referred enquiries	Ask satisfied clients for introductions.

The original plan identifies WhatsApp enquiries, cost per WhatsApp lead, response time, enquiry-to-installation conversion, video completion and repeat/referral customers as the core metrics.

18. HOW TO ACHIEVE THE PLAN — STEP BY STEP

- **Step 1 — Prepare the assets:** Photograph products, collect previous installation footage, identify completed projects and obtain permission for testimonials.
- **Step 2 — Build the content bank:** Film 4–6 strong videos during each installation visit: overview, problem, process, close-up, final result and customer reaction where permitted.
- **Step 3 — Batch production:** Use one filming session to create multiple Reels, Stories, TikToks, carousels and WhatsApp Status clips. This follows the original one-video/five-platform efficiency principle.
■filecite■turn0file0■L63-L66■
- **Step 4 — Schedule:** Prepare at least the next 7 days of graphics/captions before the week begins.
- **Step 5 — Publish consistently:** Do not allow the page to go quiet. The daily rhythm is the engine of the campaign. ■filecite■turn0file0■L67-L70■
- **Step 6 — Respond quickly:** Every comment and WhatsApp enquiry is treated as a potential customer.
- **Step 7 — Sell the solution:** Ask questions before giving a price. Recommend the right system based on property, coverage and objective.
- **Step 8 — Follow up:** Put every serious lead into a simple spreadsheet with name, phone, service, location, quote value, date contacted, next follow-up and status.

- **Step 9 — Retarget:** Build audiences from people who watched videos, engaged with pages or messaged on WhatsApp, then show them proof and offers.
- **Step 10 — Reinvest winners:** If one video/ad produces qualified leads at a better cost, shift the contingency/boost budget toward it.
- **Step 11 — Capture proof:** After every successful installation, collect photos, video, a short testimonial and permission to publish.
- **Step 12 — Close the loop:** Track enquiry → quote → inspection → installation → payment → testimonial/referral. Marketing is successful only when it produces business.

19. FINAL SIX-MONTH TARGET

At the end of six months, Banjos.Net Solutions should have a consistent library of educational content, real installation proof, testimonials, an active WhatsApp lead pipeline, a measurable advertising history and a clearer understanding of which service, audience and message generate the strongest commercial results. The desired positioning is: **a trusted technology partner for homes and businesses — not simply a seller of cameras or gadgets.**
